RE: DANIEL ELLES LETTER OF REFERENCE

To Whom It May Concern:

Daniel Elles was a student in my World Regional Geography class during the winter semester of 2023 at Macomb Community College in Warren, MI. World Regional Geography combines both physical and human geography.

Mr. Elles stood out immediately in the class with his well thought out discussion forum posts in which he tied in his extensive travels and in depth knowledge of various cultures and world events. During the book chapter reviews he also went above and beyond the requirements of the syllabus and associated rubrics with well thought out opinions backed with extensive references on a wide variety of topics related to World Regional Geography. He also performed nearly perfectly on his exams.

I have taught at Macomb Community College since 2005 as well as at 6 other colleges and universities. I would rank Mr. Elles in the top 1% of all students that I have taught. He has the intelligence and drive to be successful in whatever he pursues both academically and in the world of work.

If you should need additional reference feel free to call me at 586-795-2554 or email me at burind@macomb.edu

Sincerely,

Dr. Dennis J. Burin

Dennis J. Burin, Ed.D
Adjunct Geography Professor
Macomb Community College
